Most Common Nursing Interview Questions

- Why do you want to work as a nurse?
- What are your core values?
- What is your attitude to old people? Do you like to spend time with them?
- Do you have a goal in your life? If yes, what it is?
- Do you like to talk to people? What topics for conversation do you like the most?
- Imagine you knew a patient had little or no chances of surviving the night, and they were crying and lamenting that they did not want to die. What would you do to ease their suffering?
- You have a little child to care for during the night shift. It is late in night, but the child can not sleep. What will you do?
- Do you have any role model in your life? What do you like the most about your role model?
- Imagine a mother of one of your patient complained about the care their child received in the hospital. How would you handle the situation?
- Is there anything you do not like about the job of a nurse?
- What do you think makes you a good nurse?
- Two patients are demanding your attention at the same time. You are the only nurse on a shift at the moment. What will you do?
