## Your Best Job Interview Coach Since 2011

### ***TOP 10 SEO Interview Questions***

- Define SEO.
- Why is SEO important for every business?
- What is your opinion on WordPress and Joomla? Which CMS is the best one when we talk about on-page SEO?
- Define the main factors that influence the position of the website in SERPs nowadays?
- What do you consider the future of search engine optimization?
- Try to describe SEO to someone who has never heard the expression.
- Have you ever used any black-hat SEO techniques? If yes, tell us about the results you achieved with them.
- Can you show me a website that you have optimized?
- Why do you want to work for a company, instead of pursuing a freelancing career?
- What programming languages do you know? How can they help you in optimizing the website for Google?
