Machinist Interview Questions – Prepare for your interview

- Why do you want to work as a machinist?
- Why do you want to work as a machinist in our company?
- Tell us something about your experience in the field (types of CNC machines, etc).
- This job is quite repetitive. What will motivate you to work hard, in a long term horizon?
- How would you deal with a pressure in work (with a tight deadline)?
- What motivates you the most in this job?
- Describe a conflict you had with one of your colleagues in your previous job.
- Describe a goal you achieved, and tell us how you achieved it.
- What are your salary expectations?
- What would your former colleagues/classmates say about you?
- What do you consider the toughest aspect of the machinist job?
- Where do you see yourself in five years time?
- Why should we hire you, and not another applicant for the job?
- Do you have any questions?
