Electrician Interview Questions – for job seekers to practice the answers

1. Why electrician, and not some other job?
2. How do you imagine a typical day in work?
3. Tell us about the last three defects you repaired/last three installations you performed.
4. Where do you see yourself in five years time?
5. If we hire you for this electrician position, what will be the first thing you do in your new job?
6. What does a fuse or breaker do? What are the differences between the two?
7. How can you prevent high-voltage electrical systems from breaking down?
8. A colleague got an electric shock. What will you do?
9. What's over-lamping and why is it dangerous?
10. What are the most common defects of PLC?
11. What are your salary expectations?
12. When can you start the job?
13. After everything that has been said in this interview, do you have any questions?
