## Your Best Job Interview Coach Since 2011

### Research Assistant Interview Questions

1. Please tell us more about your research interests.
2. Why do you want to work for our laboratory (University, company), and not for someone else?
3. How do you imagine a typical day in work in our lab?
4. How would you describe an ideal colleague, or an ideal boss?
5. What is your experience with this or that software?
6. How do you ensure to make no mistakes in your work?
7. We may sometimes work on a study for months, doing the same work day after day, without seeing any results. How do you plan to stay motivated in such circumstances?
8. Where do you see yourself in ten years time?
9. In your opinion, what was the one most important scientific discovery made in our field during the last ten years?
10. What are your salary expectations?
11. What are your plans in your academic career? Would you like to teach in the future, or get a doctorate?
12. What does quality mean to you?
13. After everything that has been said in this interview, do you want to tell us something more about yourself, or do you have any questions?
