Project Analyst interview questions

1. Can you please tell us a bit more about your working experience?
2. Tell us about the best and worst analysis you ever made.
3. How would you describe a role of a project analyst in project management?
4. Imagine that you propose an important change to a project (or a new project), one you're sure about, but the executives are against the changes. What will you do?
5. How do you ensure that you track and analyze each important variable in the project?
6. What do you want to accomplish while working as a project analyst in our company?
7. What are your expectations on project managers, and other people in the business?
8. Describe your experience with budgeting projects.
9. Tell us about a time when you dealt with ambiguity in work.
10. What do you know about our company, and why did you decide to apply with us, and not with one of our competitors?
11. What motivates you the most in work?
12. What are your salary expectations?
13. Tell me one thing about yourself you wouldn't want me to know.
