

## Youth Specialist Interview Questions

1. Why do you want to work as a youth specialist?
2. How will you identify teenagers who need your assistance in your area of work?
3. The success rate in this job isn't particularly high. Most youngsters won't return to the right path after your intervention. How do you plan to deal with such setbacks?
4. How would you gauge a safety of a home environment during your home visits?
5. In which cases will you advocate for a prompt changing of a place of living?
6. How will you try to gain trust of the youth in this facility?
7. Imagine that someone informed you about youth having some contraband in a room (dormitory, flat, common area). It's 11pm, Friday. What will you do?
8. In your opinion, what role does reporting and monitoring plays in this work?
9. Imagine that you conduct a routine inspection, and one of the teenagers starts being hostile to you. How will you react?
10. One of your clients falls in love with you, and proposes a romance. What will be your reaction?
11. How do you imagine your cooperation with psychologists, counselors, and other social workers?
12. What do you want to accomplish while working as a youth specialist here? Any goals you will set for yourself for the first year in work?
13. After everything we discussed here, do you want to add something or do you have any questions?
